

Innovation management

All Ideas Matter

Improli's Idea Management solution enables organisations to easily enhance or start their suggestion scheme or innovation programme. Whether big or small, from private or public sector, all organisations benefit from efficient, easy-to-use and feature-rich solution covering all aspects of idea management.

Top level management can steer innovation systematically by launching innovation projects and campaigns. Efficiency and savings of the scheme can easily be monitored through versatile online reporting and recognitions and motivational

campaigns keep the scheme up and running. For users, submissions are easy through user friendly online forms and managers and evaluators benefit from customisable handling process. Idea portfolio, tasks, email reminders and automatic identification of duplicate ideas help managers to take care of organisations existing ideas.

As a supplier of powerful Project Management software Improli's Idea Management solution benefits from included innovation and implementation project management sections.
